

# How to disable driver signature compulsory for Win10

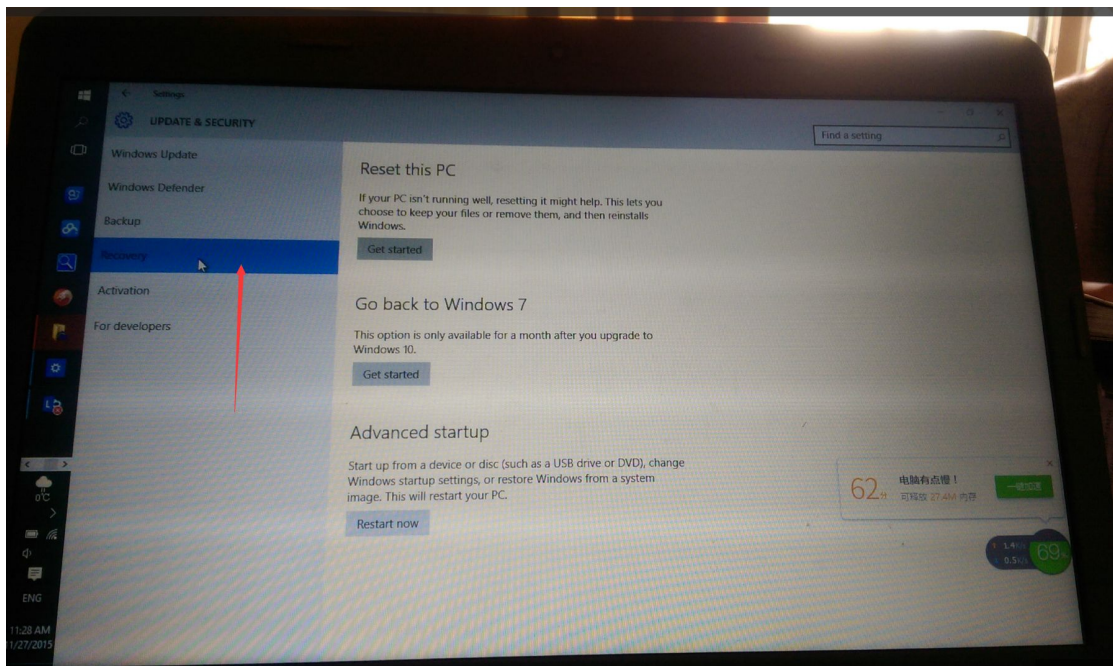

- a. Press the **Win** and click on **Settings**.

- b. Switch over to the “**Update & recovery**” section.

- c. Then click on the **Recovery** option on the left hand side.

- d. Once selected, you will see an advanced startup section appear on the right hand side. You will need to click on the “**Restart now**” button.

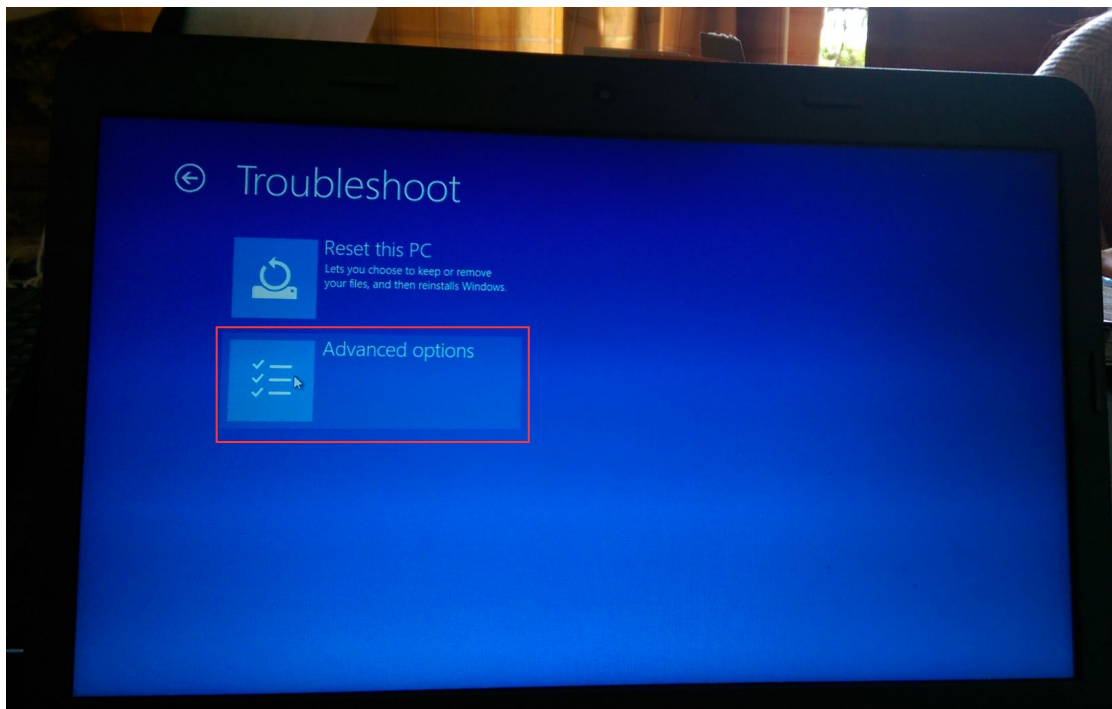

e. Waiting

f. Once your Computer has rebooted you will need to choose the **Troubleshoot** option.

- g. Then head into **Advanced options**.

- h. Then **Startup Settings**.

- i. Since we are modifying boot time configuration settings, you will need to restart your computer one last time.

- j. Here you will be given a list of startup settings that you can change. The one we are looking for is “**Disable driver signature enforcement**”. To choose the setting, you will need to press the **F7** key.
