## USER GUIDE

### Getting started

Thank you for choosing Infinix smartphone. We hope this product will bring you a refreshing new experience.

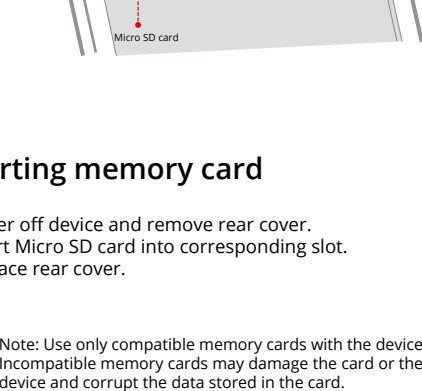

### Features and parts

**Note:** The phone can be restarted by holding the power button for 10 seconds.

### Inserting SIM card

1. Power off device and remove rear cover.
2. Insert SIM card into the corresponding slot.
3. Replace rear cover.

### Inserting memory card

1. Power off device and remove rear cover.
2. Insert Micro SD card into corresponding slot.
3. Replace rear cover.

**Note:** Use only compatible memory cards with the device. Incompatible memory cards may damage the card or the device and corrupt the data stored in the card.

### Charging the phone

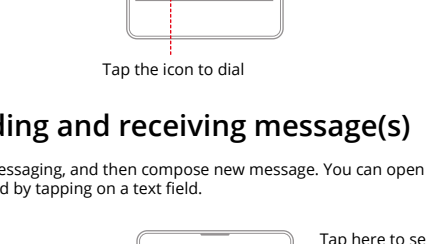

You can charge your device using a charger or by connecting it to the computer using a USB cable (comes with the phone).

**Note:** Only use compatible charger; the phone can be restarted by holding the power button for 10 seconds.

### Making a call

On home screen, tap and dial complete phone number to make call.

### Call log

In the call log, you can make a call, add new contact or send a message.

### Sending and receiving message(s)

Enter Messaging, and then compose new message. You can open the keyboard by tapping on a text field.

### Specific absorption rate (SAR) certification information

THIS DEVICE MEETS INTERNATIONAL GUIDELINES FOR EXPOSURE TO RADIO WAVES

Your mobile device is a radio transmitter and receiver. It is designed not to exceed the limits for exposure to radio waves (radio frequency electromagnetic fields) recommended by international guidelines. The guidelines were developed by an independent scientific organization (ICNIRP) and include a substantial safety margin designed to assure the safety of all persons, regardless of age and health.

The radio wave exposure guidelines use a unit of measurement known as the Specific Absorption Rate, or SAR. The SAR limit for mobile devices is 2.0 W/kg. Tests for SAR are conducted using standard operating positions with the device transmitting at its highest certified power level in all tested frequency bands. The highest SAR values under the ICNIRP guidelines for this device model are:

Maximum SAR for this model and conditions under which it was recorded	
Head	0.316 W/kg
Body	0.377 W/kg

During use, the actual SAR values for this device are usually well below the values stated above. This is because, for purposes of system efficiency and to minimize interference on the network, the operating power of your mobile device is automatically decreased when full power is not needed for the call. The lower the power output of the device, the lower its SAR value.

A body-worn SAR test has been performed on this device at a separation distance of 1.5 cm. To meet RF exposure guidelines during body-worn operation, the device must be positioned at least 1.5 cm away from the body.

Organizations such as the World Health Organization and the US Food and Drug Administration have suggested that if people are concerned and want to reduce their exposure, they could use a hands-free accessory to keep the wireless device away from the head and body during use, or reduce the amount of time spent using the device. For more information, visit [www.infinixmobility.com](http://www.infinixmobility.com) and search for your device with the model number.

### Declaration of conformity

We, INFINIXMOBILITY LIMITED

declare under our sole responsibility that the product GSM/WCDMA BT/Wi-Fi GPS Mobile Phone: X510 to which this declaration relates, is in conformity with the following standards and/or other normative documents.

**SAFETY** EN 60950-1:2006 + A11:2009+A1:2010+A12:2011+A2:2013

**Health** EN 62479:2010;EN 50566:2013;EN 62209-1:2006  
EN 50360:2001+AC:2006+A1:2012;EN 62209-2:2010

**EMC** EN 301 489-1 V1.9.2; EN 301 489-3 V1.6.1  
EN 301 489-7 V1.3.1; EN 301 489-17 V2.2.1  
EN 301 489-24 V1.5.1;

**RADIO** EN 301 511 V9.0.2 ; EN 300 328 V1.8.1;  
EN 301 908-1 V6.2.1;EN 301 908-2 V6.2.1;  
EN 300 440-1 V1.6.1; EN 300 440-2 V1.4.1;

We hereby declare that [all essential radio test suites have been carried out and that] the above named product is in conformity to all the essential requirements of Directive 1999/5/EC.

The conformity assessment procedure referred to in Article 10 and detailed in Annex [IV] of Directive 1999/5/EC has been followed with the involvement of the following Notified Body(ies):

Intertek, Cleeve Road,  
Leatherhead, Surrey,  
KT22 7SB, United Kingdom.  
Identification mark: 0359  
The technical documentation  
kept at :  
Intertek Testing & Certification Ltd.

which will be made available upon request.
