## USER GUIDE

## Getting started
Thank you for choosing Infinix smartphone.
We hope this product will bring you a
refreshing new experience.

## Features and parts

Front Camera
Camera
Flash

Menu  Home  Back
Speaker

Volume  Power  T Card
Button  Button  Holder

⚠ Note:The phone can be restarted by holding the power button
for 10 seconds.

i

## Inserting SIM card

1. Push the holder in the SIM card slots next to the thimble
hole it pops out .
2. Place the SIM cards face down and align it with the
opening of the holder .
3. Insert them into the SIM card slots of the phone properly.
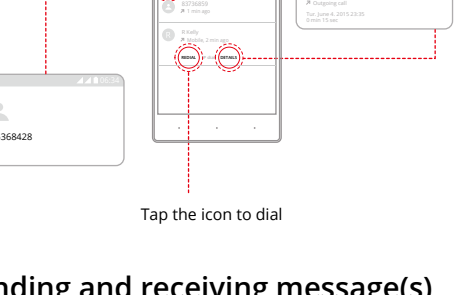

SIM1

SIM2

ii

## Charging the phone

You can charge your device using a charger or by connecting it to the
computer using a USB cable (comes with the phone).

⚠ Note: Only use compatible charger; immovable inbuilt battery.
The phone can be restarted by holding the power button for
10 seconds.

iii

## Making a call

On home screen, tap 📞 and dial complete phone number to make a
call.
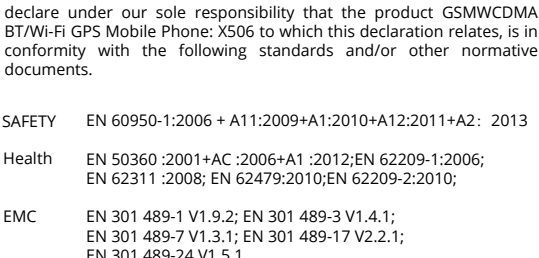

08552-SBN-2B

Calling via
**R Kelly**
Mobile 08530XXXX

iii

## Call log

In the call log, you can make a call, add new contact or send a message.

08530XXXX

Tap the icon to dial

## Sending and receiving message(s)

Enter Messaging, and then compose new message. You can open the
keyboard by tapping on a text field.

Tap here to add
attachments such as
pictures, videos and
audio files.

Tap to capitalize
the next letter
you type.

Tap here to select
contact from
phonebook.

Press space or
a punctuation
mark to enter
the highlighted
suggestion.

iv

a. When you are composing a new text message, you can select text for
cutting or copying. The selected text is highlighted in blue.
- Tap and hold the text field or portion that contains text.
- You can select all texts, copy, cut and paste.

b. When a new message is received, you can read it by opening the
notification panel and clicking the message, or entering Messaging to
read it directly.

## Specific absorption rate (SAR) certification information

THIS DEVICE MEETS INTERNATIONAL GUIDELINES FOR EXPOSURE TO
RADIO WAVES

Your mobile device is a radio transmitter and receiver. It is designed not
to exceed the limits for exposure to radio waves (radio frequency
electromagnetic fields) recommended by international guidelines. The
guidelines were developed by an independent scientific organization
(ICNIRP) and include a substantial safety margin designed to assure the
safety of all persons, regardless of age and health.
The radio wave exposure guidelines use a unit of measurement known
as the Specific Absorption Rate, or SAR. The SAR limit for mobile devices
is 2.0 W/kg. Tests for SAR are conducted using standard operating
positions with the device transmitting at its highest certified power level
in all tested frequency bands. The highest SAR values under the ICNIRP
guidelines for this device model are:

| Maximum SAR for this model and conditions under which it was recorded | |
|---|---|
| Head | 0.485 W/kg |
| Body | 0.482 W/kg |

During use, the actual SAR values for this device are usually well below
the values stated above. This is because, for purposes of system
efficiency and to minimize interference on the network, the operating
power of your mobile device is automatically decreased when full power
is not needed for the call. The lower the power output of the device, the
lower its SAR value.
A body-worn SAR test has been performed on this device at a separation
distance of 1.5 cm. To meet RF exposure guidelines during body-worn
operation, the device must be positioned at least 1.5 cm away from the
body.
Organizations such as the World Health Organization and the US Food
and Drug Administration have suggested that if people are concerned
and want to reduce their exposure, they could use a hands-free accesso-
ry to keep the wireless device away from the head and body during use,
or reduce the amount of time spent using the device. For more informa-
tion, visit www.infinixmobility.com and search for your device with the
model number.

v

## Declaration of conformity

We, INFINIXMOBILITY LIMITED

declare under our sole responsibility that the product GSMWCDMA
BT/Wi-Fi GPS Mobile Phone: X506 to which this declaration relates, is in
conformity with the following standards and/or other normative
documents.

| | |
|---|---|
| SAFETY | EN 60950-1:2006 + A11:2009+A1:2010+A12:2011+A2:  2013 |
| Health | EN 50360 :2001+AC :2006+A1 :2012;EN 62209-1:2006;  EN 62311 :2008; EN 62479:2010;EN 62209-2:2010; |
| EMC | EN 301 489-1 V1.9.2; EN 301 489-3 V1.4.1;  EN 301 489-7 V1.3.1; EN 301 489-17 V2.2.1;  EN 301 489-24 V1.5.1 |
